Aquaculture 155 (1997) vi–viii

Aquaculture

Contents

Preface	ix
Broodstock, egg and larval quality	
Blastomere morphology as a predictive measure of fish egg viability R.J. Shields (Argyll, Scotland, UK), N.P. Brown and N.R. Bromage (Stirling, UK)	1
Carp (<i>Cyprinus carpio</i> L.) spermatozoa cryobanks — strategies in research and application E. Lubzens, N. Daube, I. Pekarsky (Haifa, Israel), Y. Magnus (Maagan Michael, Israel), A. Cohen (Haifa, Israel), F. Yusefovich (Maagan Michael, Israel) and P. Feigin (Haifa, Israel)	13
Cryopreservation of late embryos and early larvae in the oyster and hard clam N.-H. Chao (Keelung, Taiwan), T.-T. Lin (Taipei, Taiwan), Y.-J. Chen, H.-W. Hsu and I.-C. Liao (Keelung, Taiwan)	31
Techniques for the hatchery conditioning of bivalve broodstocks and the subsequent effect on egg quality and larval viability S.D. Utting and P.F. Millican (Conwy, United Kingdom)	45
Seasonal and age variability in the reproductive performance of <i>Penaeus semisulcatus</i> broodstock: optimising broodstock selection P.J. Crocos and G.J. Coman (Cleveland, Que. Australia)	55
A review of the effect of genetics and environment on the maturation and larval quality of the giant tiger prawn <i>Penaeus monodon</i> J.A.H. Benzie (Townsville, Que. Australia)	69
Maturation performance of <i>Penaeus vannamei</i> co-fed <i>Artemia</i> biomass preparations E. Naessens (Guayaquil, Ecuador), P. Lavens (Ghent, Belgium), L. Gomez (Guayaquil, Ecuador), C.L. Browdy, K. McGovern-Hopkins, A.W. Spencer (Bluffton, SC, USA), D. Kawahigashi (Newark, CA, USA) and P. Sorgeloos (Ghent, Belgium)	87
Larval Nutrition	
The significance of lipids at early stages of marine fish: a review J.R. Rainuzzo, K.I. Reitan and Y. Olsen (Trondheim, Norway)	103
Requirements, presentation and sources of polyunsaturated fatty acids in marine fish larval feeds J.R. Sargent, L.A. McEvoy and J.G. Bell (Stirling, UK)	117
Effects of docosahexaenoic acid and phospholipids on stress tolerance of fish A. Kanazawa (Kagoshima, Japan)	129
The stability of docosahexaenoic acid in two <i>Artemia</i> species following enrichment and subsequent starvation J.O. Evjemo (Trondheim, Norway), P. Coutteau (Gent, Belgium), Y. Olsen (Trondheim, Norway) and P. Sorgeloos (Gent, Belgium)	135
Review on the dietary effects of phospholipids in fish and crustacean larviculture P. Coutteau, I. Geurden, M.R. Camara (Gent, Belgium), P. Bergot (Saint Pée-sur-Nivelle, France) and P. Sorgeloos (Gent, Belgium)	149
Optimization of dietary vitamin C in fish and crustacean larvae: a review G. Merchie, P. Lavens and P. Sorgeloos (Gent, Belgium)	165

Co-feeding marine fish larvae with inert and live diets G. Rosenlund (Forus, Norway), J. Stoss (Øyestranda, Norway) and C. Talbot (Forus, Norway)	183
The mode of action of <i>Artemia</i> in enhancing utilization of microdiet by gilthead seabream <i>Sparus aurata</i> larvae S. Kolkovski, W. Koven and A. Tandler (Eilat, Israel)	193
A review of the nutritional effects of algae in marine fish larvae K.I. Reitan, J.R. Rainuzzo, G. Øie and Y. Olsen (Trondheim, Norway)	207
Mass production and preservation of the resting eggs of the euryhaline rotifer <i>Brachionus plicatilis</i> and <i>B. rotundiformis</i> A. Hagiwara, M.D. Balompapueng (Nagasaki, Japan), N. Munuswamy (Madras, India) and K. Hirayama (Nagasaki, Japan)	223
Production and use of copepods in marine fish larviculture J.G. Støttrup and N.H. Norsker (Hirtshals, Denmark)	231

Growth, Physiology and Behaviour

Priorities during early growth of fish larvae J.W.M. Osse, J.G.M. Van den Boogaart, G.M.J. Van Snik and L. Van der Sluys (Wageningen, Netherlands)	249
The cost of growth in young fish larvae, a review of new hypotheses B.H. Pedersen (Helsingør, Denmark)	259
Growth performance in clonal crucian carp, <i>Carassius langsdorfii</i> . Effects of genetic difference and feeding history T. Umino, K. Arai and H. Nakagawa (Kagamiyama, Japan)	271
The digestive physiology of herbivorous, omnivorous and carnivorous crustacean larvae: a review D.A. Jones (Gwynedd, UK), M. Kumlu (Adana, Turkey), L. Le Vay and D.J. Fletcher (Gwynedd, UK)	285
The use of behavioural observations in the larviculture of cold-water marine fish J.A. Brown, D. Wiseman and P. Kean (St. John's, Canada)	297

Larviculture Zootechniques and Economics

Spawning and larval husbandry of flounder (<i>Paralichthys woolmani</i>) and Pacific yellowtail (<i>Seriola mazatlanica</i>), new candidate species for aquaculture D.D. Benetti (Guayaquil, Ecuador; Miami, FL, USA)	307
Application of ecosystem culture method for complete development of phyllosomas of spiny lobster J. Kittaka (Hokkaido, Japan)	319
Commercial feasibility of semi-intensive larviculture of atlantic halibut (<i>Hippoglossus hippoglossus</i> L.) L. Berg (Bergen, Norway)	333
Larviculture of marine fish for sea ranching purposes: is it profitable? E. Moksness (His, Norway) and R. Støle (Kristiansand, Norway)	341
A re-appraisal of the potential of the sole, <i>Solea solea</i> (L.), for commercial cultivation B.R. Howell (Conwy, UK)	355
Bioeconomic evaluation of different fry production systems for milkfish (<i>Chanos chanos</i>) C.-S. Lee (Waimanalo, HI, USA), P.-S. Leung (Honolulu, HI, USA) and M.-S. Su (Pingtung, Taiwan)	367

Microbiology and disease control

The role of bacteria in the digestion of seaweed by the abalone <i>Haliotis midae</i> J.H. Erasmus, P.A. Cook and V.E. Coyne (Rondebosch, South Africa)	377
Dominant intestinal microflora of sea bream and sea bass larvae, from two hatcheries, during larval development L. Grisez, J. Reyniers (Leuven, Belgium), L. Verdonck, J. Swings (Gent, Belgium) and F. Ollevier (Leuven, Belgium)	387

The use of immunostimulation in marine larviculture: possibilities and challenges	
O. Vadstein (Trondheim, Norway)	401
